

Ronit Tambe

Web Developer

Borivali West, Mumbai, 400092 | 9834080560 | ronittambe116@gmail.com | <https://github.com/ronit1161>

Passionate web developer with a background in Electronics and Telecommunication Engineering. Transitioned into coding and have completed comprehensive training in web development. Proficient in building full-stack applications. Eager to contribute my skills as a fresher in a dynamic environment and grow as a developer.

SKILLS

- **Programming Languages:** JavaScript, HTML, CSS
- **Frameworks & Libraries:** React.js, Tailwind CSS, Next.js, Node.js, Express.js, Mongoose
- **Databases:** MongoDB
- **Tools & Technologies:** Git, Vercel, AWS
- **Others:** RESTful APIs, Real-time applications, Responsive Web Design

PROJECTS

Real-time Tracking App

- **Technologies:** Node.js, Express.js, socket.IO
- **Key Features:** Implemented real-time location tracking using Socket.IO and Node.js. Ensured smooth communication between the client and server for real-time updates.

Food Ordering App

- **Technologies:** Next.js, Tailwind CSS
- **Key Features:** Designed an intuitive UI using Tailwind CSS and implemented efficient server-side rendering with Next.js for fast and seamless navigation.

Expense Tracker

- **Technologies:** React, Vanilla CSS
- **Key Features:** Implemented state management for expense tracking and used responsive design principles to ensure usability across devices.

EDUCATION

B.E (Electronics & Telecommunication Engineering)

2019-2023

Finolex Academy of Management of Technology, Ratnagiri
7.13 CGPA

EXPERIENCE

Intern at Valuepitch (Present)

- Collaborated with cross-functional teams to provide accurately labeled data, improving the performance of AI and machine learning algorithms across multiple projects.
- Conducted precise audio annotation, labeling speech segments and sound events to train models for speech recognition and audio classification tasks.

ADDITIONAL INFORMATION

Internships and Courses -

- Hands on training in Data Science using Python, from 5 Jan to 7 Jan 2021
- IoT Project Development using Industry Grade Microcontroller, from 28th June to 28th July 2021

Hobbies -

- Traveling
- Gaming
- Swimming
- Cooking
